**To whom it May concern**

Odense, 29<sup>th</sup> of June 2022

Fruzsina Kutsera has been with AviationCloud A/S since April 2018 as part of our Data Team and finished as Team Lead for our Data team. She has been working part time along with her studies at University of Southern Denmark (SDU).

The Data team's responsibilities include collecting/gathering data from airports by mail and phone correspondence with the airport authorities and FBO's and update data documents with airport information. Fruzsina's work has included management of the team, including hiring and guidance of the team, 6 - 8 student workers.

Fruzsina is a person with a highly effective and focused work performance, who's always aiming to deliver excellent work and hardworking. She can easily adapt to new constraints/work environment.

She's been a very valued member of our Data team and AviationCloud, who has been taken her tasks very seriously, but also with a very friendly and open attitude.

I give Fruzsina my highest recommendation to a new employer.

Should you need more information, you're always welcome to contact me on [jette@foreflight.com](mailto:jette@foreflight.com).

Best regards,

AviationCloud A/S
